COTTONS

Now Being Used as Substitutes
for Linens

From the very nature of the Linen market a great many of our people must necessarily use Cotton Fabrics in substitution of Linen Fabrics. Our judgment is that good articles made of good cotton are far better for service, appearance and use, and more economical than poor quality articles of flax.

Therefore, we will not offer inferior grades of linen or flax productions, but we do show extensive lines of the best cottons. They are grades that we recommend and endorse.

TABLE DAMASKS, by the yard, made of mercerized cotton. 50c, 60c, 75c, \$1.00 and \$1.50 yard.

TABLE CLOTHS, of mercerized cotton; good patterns. 2 yards long, \$1.35 and \$1.80 each; 2½ yards long, \$1.75 and \$2.25 each.

Bird Houses that Will Attract the Birds

There are more reasons for attracting the birds around our homes this year than ever before. With everyone planting gardens and indulging in some kinds of agricultural pursuits, you will need birds to destroy the many different kinds of insect pests which infest the garden.

To attract birds to your yard or garden it is necessary to provide houses for them.

We now offer a large selection of Bird Houses, made of cedar, thus more attractive and durable than the ordinary wooden constructed houses formerly offered.

Swinging Bird Houses have proved to be a most satisfactory design for outwitting the English sparrow; very ornamental. \$1.50. Several other designs for bluebirds and wrens are also offered at this price.

Rustic Bird Houses for wrens at \$1.25, an especially good design to place in the trees; also 3 or 4 other styles at this same price.
